Friday Morning, Feb. 18, 1870, The Omissions. Having made a carsory disposition of the conditions submitted by the Executive as the basis of the proposed union with Canada, let us consider for a little what we conceive to be the omissions, to the supplying of which it is hoped the Legislative Council will give attention; V Proceeding to deal with these in the order of their relative importance, we must be permitted to place the subject of Responsible Government in the foreground. Without possessing that elasticity of principle which enables some would-be tribunes of the people to advocate one thing one day and the opposite the next, our belief in the fitness of this colony for a judicious exercise of the rights of self-government remains undisturbed, The man who believes that the authorities at Ottawa, or rather, the people of Canada, for it really comes to that, can manage our local affairs better than we can do ourselves has a perfect right to hold such an opinion; but we imagine there are few persons in this colony who will concur in so palpable an absurdity. The right to a voice in the expenditure of revenues to which they contribute is one enjoyed by all free born Britons, and which can only be forfeited by high crime or misdemea-nor. Was it a crime for British subjects to cross an ocean and a continent to establish and consolidate the institutions and authority of their country on the shores of the Pacific? The colonists have already spent a whole decade in seeking a restoration of those rights bought by the blood of their rights bought by the shock of the forefathers, wrested from the aristoc-racy of England by plebeian steel; and it would, indeed, be strange if the con-stitutional changes about to take place were unaccompanied by this long-sought political manumission. The coloniets will look to the Legislative Council to have included in the terms of union such a provision as will entitle British Columbia to a constitution based mpon the great principle of responsibility to the people—a guarantee that the affairs of the colony shall be administered according to the well-understood wishes of the tax-payers. This the colonists ask not as a favor or concession. They demand it as a right!
When it is remembered that the Indian population of this colony bears so large a proportion to that of the whites, one would naturally expect to find in the schedule of terms some allusion to the important subject of an Indian policy. We are aware that Canada has her Indian policy; and we are also aware that it is one which has proved eminently successful. It may be assumed that, as a matter of course, the Indian policy of Canada would extend over British Columbia as the result of union; yet in dealing with conditions of union, it may be well to assume nothing that can be easily and properly expressed in explicit words. The question of an Indian policy is surely one of sufficient importance to entitle it to specific mention; and it should be distinctly understood that the Dominion Government will be prepared to at once organize an efficient Indian department, with all its necessary agencies, in British Columbia. The subject of a geological survey is one which ought also to have been prowided for. The importance of such a survey in this colony cannot easily be overestimated. At present searching for mineral deposits very much recembles play at 'blind man's buff,' and a geo-logical survey would in a great measure remove the bandkerchief from the eyes. In a country so large and, in great part, so difficult to penetrate, a knowle edge of the general formations would be of incalculable value to the prospector. As has been stated in a previous article, the Dominion possesses a very efficient geological staff, and has set apart a fund of \$100,000 for the purpose of carrying on surveys extending over five years. It would not appear unreasonable to expen that the turn of British Columbia shoud follow close upon the heels of Confederation; and, in order that there may be on misunderstanding about the matter it may be as well just to mention it. The policy of establishto mention it. The policy of establishing a free port here is the regarding which we are free to admit me difference of opinion exists; and it just in consideration of this difference of opinion that we propose to seek power for the Provincial authorities to deal with the question in faccordance with the well understood wishes of the people, after union, rather than to seek the establishment of a free port by the Dominion Government, as a condition of Confederation. A little reflection must show the wisdem of this course. If after union the people should, upon mature reflection, find it to be greatly to the interest of the colony to possess a free port, it would be very convenient to have the power to establish it. It may be have the power to establish it. It may be said that such matters might well be left open for the Dominion Covernment is deal with as the exigencies present themselves, and that if at any time it can be shown to the satisfaction of the larger Gorenment that the establishment of a line porton the Pacific would promote local wellbeing, without injuriog general interests, it would be conceded. For our part, we regard the commercial position and interests of this colony as being so exceptional, and the establishment of a free port as being so easential to any large measure of immediate prosperity that we conceive the insertion of such a provision in the terms asked for from Canada to be not only justifiable but.

Canada to be not only justifiable but highly proper. There is only one other omis-aion to which we will call attention at pre-

sent, and that is provision for negotiating, on credit of the Dominion, a loan for the construction of efficient water works for this city. We may be told that this is a subject of too purely a local and Municipal charac-ter to enter into the list of conditions. Although in a great measure local, yet we olsim for this question colonial, nay national breadth and importance. The early introduction of an ample supply of good, whole-some water is essential to the very existence of Victoria. The whole colony is surely in-terested in the prosperity of its chief mari-rime and commercial city. The Dominion is concerned in the advancement and comis concerned in the advancement and com-mercial prosperity of its chief outlet on the Pacific. The matter is undeniably local; but yet it possesser sufficient general in-terest to justify us a asking the Dominion to lend us a morse! of its credit for such a pur-pose. Indeed all objections of this sort must vanish before the lact that the Dominion for Concernment was found willing to underion Government was found willing to under take precisely similar duties with respect to a love important colony. The public will certainly expect the Legislative Council to supply this omission—one involving such trifling considerations to the Dominion, but

The Indian Murders—Extract from a Private Letter from Knight's Inlet.

GLANMIRE HOUSE, Feb 2d, 1870.

FRIEND * * * * * For God's sake spread the news of the state of affairs here. Six Indians were murdered a few days ago, and to-day my store was robbed of much of its goods. I am sending a large batch of complaints to Mr Pemberton, including Kinghal's myder, and if the Governcluding Knight's murder, and if the Government will not take the matter in hand, there will have to be a company raised to punish the natives. The Indians think that a gunboat will dever be sent up to punish them, and there is no knowing what they may do.

* * They are worse than they were ten years ago.

JAMES F McGRATH.

ART AND MANUFACTURES .- There is perhaps in no branch of industry greater cope aborded to the artis's skill than in the de-rigin and manufacture of Dress Fabrics. A large stock of the newest styles of Dress Materials, comprising some cheap job lots, suitable for the present and the approaching season, together with a general assortment of Dry Goods, received, a California, today by—A. B. Gray, Government street.

A CHANCE FOR BARGAINS IN CLOTHING .-A CHANCE FOR BARGAINS IN CLOTHING.—
A. Gilmore, Yates street, near Government, has commenced to sell off his entire stock of readymade clothing at cost, to close out that branch of his business, as he intends to confine his attention to Merghant Tailoring. Carments of every description made to order in the most lashionable styles at greatly reduced prices.

Our modern course of living begets a condition of the body that requires occasional relief. The system becomes enfectled, deranged, clogged, and labors in its task. The mind sympathizes with it and both sink, or are depressed together. To restore the vital energies, purge the system—cleanse the blood—take Ayer's Pills. [Glasgow (Ky.) Free Preca 1 REMEMBER THE FATE OF ABSALON .- Fred.

History of the New Peace River Mines.

The suspicion which immediately attached itself to the statements of the Government party on their return to Quesselmenth sprang chiefly from their actions, and but for the severe criticisms of the press and the pressure of public opinion it is not likely that the details which gradually leaked out would have keen known at all from them this season. Immediately after their reture, independent of the money deposited by Humphreys at Barkerville, who all through was not only extremely reticent, but decind even to his friends that there was anything worth returning for, they were known to be purchasing provisions, tools, etc, on a large scale and otherwise prepaining to make a speedy return. It was naturally asked how could these men, who a few months previously had no money amongst them, be able to do all these things if they had not brought back a large sum from the mines? During this discussion a letter was received at Quesnelmouth from Mr Ogden, H B Co's agent at Stuart's Lake, stating that he also had received from them on the reway down The suspicion which immediately attached agont at Stuart's Lake, stating that he also had received from them on ther way down \$2500 in gold dust for provisions, and if they could at the same time have purchased tools from him the presumption is they would not have returned until the end of the present year. Nonplussed by this evidence against them they has end their departure, but not before one of the party. when a little ' under the influence,' admitted when a little 'noder the influence,' admitted that the gross amount taken out in 35 days work by the Government party—independent of the Chapman party of three—amounted to about \$8,000, an amount which with the sum paid to Mr Ogden, the sum deposited by Humphreys and different other sums paid to parties in Victoria and elsewhere can be accounted for by outsiders.

Macre can be accounted for by outsiders.

It was now determined upon by certain miners in Cariboo to dispatch another party at once to Peace River to ascertain the real truth in the short at possible time; and two well-known men, Dennis Kane, and R. Sylvester, were selected. That these men faithfully performed the ardrous duty required of them is shown by the following extract from them is shown by the following extract from the Cariboo Sentinet of 11th December, 1869, by which it will be seen they overtook the ex-government party who had already started back to the mines, by the time they, reached Fort St James:

THE PEACE RIVER PARTIES .- Information THE PRACE RIVER PARTIES.—Information as to the progress of the Peace River parties reached Quesnelmouth a few days ago. All the boats had arrived at Stuart's lake on the 27th November. Kane and Sylvester, who went by the Telegraph company's trail, had arrived first at Fort St James, and had left before the other parties, who went up the river in boats, arrived there. It is said that the experiment party was year what the ex-government party were ver much put out at this, and two of them, on learning that they had been passed, immediately set out in a cance to overtake the quicker travellers, and arrive at the new diggings in time to take their choice of claims. The ex-government party, had expressed great time to take their choice of claims. The ex-government party had expressed great dissatisfaction at one of their number, who, while at Queenelmouth, had been too communicative—that is to say, he had told more of the truth about the new diggings than had been desired and agreed upon by the rest. All reserve now appears to be dispensed with, and the party generally acknowledged, while at Fort St James, that the diggings were far richer than they had reported them to be. So far all have been very fortunate to be. So far all have been very fortunate as regards weather. There was no ice in as regards weather. There was no ice in Stuart's lake, and if Lake Tatlah were also open they would meet with no difficulty in reaching the diggings. Judgiog from the weather here, where we are probably 2000 feet higher than at any point on the way, except the pass between Lake Tatlah and the new mines, we should think that all the parties would easily teach their destination. parties would easily reach their destination.

Shortly previous to reaching the mines Kane and Sylvester, not knowing the route, in turn were overtaken by the quick travelers of the ex-government party, who adopted all sorts of dodges te clude and leave them behind. Finally they compromised the them behind. Finally they compromised the matter on condition that the ex-government party should be allowed first to select atheir ground, and Kane should afterwards stake off for himself and party. Under this arrangement they traveled together to Vital's creek and thus kane and his associate had full opportunity of seeing and hearing everything that had been done by the first expedition. Sylvester was then left in charge of the ground now known as the Adair claim, and Kane returned to Barkerville and made the following report which we extract from the Cariboo Sentinel of 16th Dec, on account of its supplying full information as to the

Mr Dennis Kane returned to Barkerville per express from Quesnelmouth on Thursday, having just arrived from the new mines. The country in which the mines are situated The country in which the mines are struck is known as the Omineer country. Mr K left Quesnelmouth on the 30th October, togather with Mr R Sylvester, for the new diggings. They took with them seven horses laden with provisions and started on norse laden with provisions and started on the telegraph trail opposite Quesnelmouth and arrived at Suast's Lake on November 11th. The trail was very good all the way to Fort Fraser on Fraser Lake, a distance of about 160 miles from Quesnelmouth. From Fert Fraser to Stuart's Lake, or Fort St James, a distance of about 40 miles, the trail is contracted in many places, by burned is obstructed in many places by burned is obstructed in many places by burned timber and a guide is necessary. The only guide this party had was a Hudson Bay horse, which knew the road and led them sately to their destination. At Nicsharen River, before arriving at Fraset Luke, they were detained a half day in crossing. Mr P S Ogden kindly furnished them with a cance and two men, and the animals got over by swimming. From Quesnelmouth to Fraser Lake they found an abundance of, grass on the trail, and for the distance in a

mountainous country, they thought it the best trail they had ever passed over. Kane and Sylvester proceeded in a boat up Stuart's lake, taking with them an In-dian and provisions. After passing up Stu-

art's lake about 37 miles they came to Tromley river. Thence they followed up Tromley river about 27 miles which brought them to Tromley lake. This lake is from 4 them to Tromley lake. This lake is from 4 to 5 miles wide and apparantly of great length. In order to reach the narrowest point for crossing to Tatlah river they had to coast along the left side of the lake for about 9 miles. From Tromley lake to lake Tatlah, ap Tatlah river, the distance is about 22½ miles, still water all the way. On reaching Tatlah lake they proceeded to a point on the northeast side, up the lake a distance of 60 miles to the place known as the Landing, which is the end of boat navigation. The whole distance by boat from Stuart's lake or Fort St James without a portage to the Landing is about 160 miles, Stuart's lake or Fort St James without a portage to the Landing is about 160 miles, and was made in six days. After leaving the Landing then commenced their greatest difficulty, it requiring five days to travel a distance of fifty miles to Vial creek. On arriving at the creek they found Vital La Force—after whom the creek is samed—act Apa Kelly, who had been mining and prospecting until obliged to cease from extreme cold weather.

On Vial creek Mr. Kana saw that work

cold weather.

On Vital creek Mr Kane saw that work had been done in spots for four or five bundred feet, but no stakes had been put down. On the 29th Nov Hawkins and Grant, of On the 29th Nov Hawkins and Grant, of the discovery party, arrived on the creek and immediately selected ground, leaving the ground claimed by Chapman and company. Kane and Sylvester located ground above. The first work on the creek is about 1½ miles from the mouth. The diggings, where worked are from two to four feet deep. growing deeper further up the stream. The creek is about the same in appearance along a distance of one to two miles above where it had been worked, and then it divides into two branches and becomes steeper,

(To be continued)

SIR ARTHUR AND LADY KENNEDY .- WE have been favored with a copy of the West Africa Liberator, of the 11th December last, which contains a long account of the reception of Sir Arthur Kennedy, Lady Kennedy and Miss Kennedy upon their return from England: Sir Arthur is Governor-in-Chief of the West Africa colonies, and his administration would seem to have given very gene-ral satisfaction to the people, if we are to judge from the enthusiastic description of his reception and the tone of the numerously signed addresses. Lady Kennedy was also the recipiont of an address expressing the popular satisfaction at her return. The many popular satisfaction at her return. The many friends of Governor Kennedy and his family in this colony will be glad to learn that they occupy so high a place in popular regard.

THE Pall Malt Gazette having expressed some very natural suspicions that the British Columbian petition was the production of American politicians, Mr Vincent Colyer declares it was signed by citizens of Victoria without any outside influence whatever. To this the Toronto Globe rejoins: 'Very likely, but that there was plenty of American inside influence at work, there is so doubt. Britishborn subjects don't employ adventurers of the Colyer stamp to carry petitions to foreign rulers. But, really, the thing is not worth controversy. Vencent Colyers are as great a naisance to the Washington Cabinet as to other people—only, like all bores, they worry you less if you don't attempt to show them your own opinions. American politicians, Mr Vincent Colyer them your own opinions.

THE TELEGRAPH .- Arrangements are being made for the putting of the southern line in a complete state of efficiency. Repair-teams and workmen will be sent through the timbered country with instructions to renew poles, wire and insulators and to cut and slash among the trees until a broad avenue on either side of the line shall have been cleared. With these arrangements carried out, there will be seldom cause of complaint that the wires are down.

SERDS FOR PEACE RIVER .- On Wednesday Mr J C Beedy purchased of Jay & Bales a large quantity of vegetable seeds for Peace River. It is the intention of the purchaser to sow the seed in some eligible spot on or near the Findlay Branch of Peace River and raise vegetables for the inceming miners. Vegetables and wheat may be grown successfully in Omiceca, as was demonstrated by the H B Co's employer years ago.

MARRIAGE .- A Kennedy, Esq, son of Bis Excellency Sir Arthur Kennedy, C B, Governor-in-Chief of the West Africa settlements, to Miss Bruce, the lovely and accomplished daughter of Mr Justice Bruce of Jamaica, and the heir and representative of the late Right Henorable Lord Justice Knight Bruce.

patch from Son Francisco last night states that the next direct steamer will sail sometime in March. The colony, then, must either run a boat of its own, grease the Holladay wheels more liberally, or await Confederation and its accompanying blessings to secure a better service. But what about the Spring immigra-tion?

Howe Sound Copper Co .- A general mesting of the above company was held yesterday. It was decided to have a survey of the mine The accounts were submitted and the Directors' report, which were severally received and adopted. The election of new Directors resulted in the re-election of the gentlemen formerly in office. A suggestion was made to send a quantity of the ore to England, which is likely to be acted upon.—[Guandian, 16th.]

RELEASED .- Patrick Fowler, late of the Goldstream House, was yesterday released by order of the Chief Justice, upon furnishing his own recognizance to appear for trial at the next. Assizes. Fowler is accused of knowing more than he will tell of the murder of Baker at Langford Lake.

THE ZEALOUS .- Letters and papers from England for H M S Zealous have been received at Esquimalt. The big ship, then, it is safe to say, will soon arrive here from the South. On the 30th December she the South. On the

FIRE. There was a slight fire in a shanty on Oriental alley yesterday afternoon and the Tigers went to work with two streams and quenched it. Damage, 2 bits.

BRITISH SUBJECTS will decide the fate of Confederation in this colony. At the next election for the Legislative Council foreigners will not be allowed to vote.

THE Sir James Douglas arrived from Na. neimo yesterday evening, with 20 passengers and some Island produce.

THE Active arrived down on Tuesday.

Arrival of the Enterprise. - News from the Mainland.

The steamer Enterprise, Capt Swanson, returned from New Westminster nt 4 o'clock yesterday afternoon, bringing 19 passengers, amongst whom were Chief Justice Begbie, Hone Dewdney and Holbrook, and Messrs Nelson, Robertson and Franklin, From Mr Dewdney came through in 6 days from Soda Creek) we learn that the Hudson Bay Co's express from Peace River had not reached Soda from Peace River had not reached Soda Creek when he left, but was hourly expected.

G B Wright was having a new keel placed on his boat with a view to sending her through the canon in the spring. Bettmen were offering to freight goods from Queenelmouth to the landing at Lake Tatla for 71/2 cents per pound. Much interest is manifested in the upper country towards the Ominace willows. neca mines. There had been no communi-cation with Cariboo for several days, and as heavy smowns had 'aller, the road was be-lieved to be blocked. Mr Dewdney found lieved to be blocked. Mr Dewdney found excellent eleighing as far south as Cornwall's. The river below Yale is tree of ice and canoing good. Two men named Ned Allen and — Kay had a fight on Grave Creek. Allen was shot through the hat and Kay was badly cut with an ax. Allen was committed to await trial. One of the Pearson brothers was found tying seaseless on the roard above the Junction a few days ago. road above the Junction a few days ago He had let home some hours before on a mule. He was ricked up and promptly attended to, but remained insensible for six days and at last accounts lay in a critical condition. The injury is a heavy bruise behind one of his ears—but he can give no account of how he was injured. The German letterman at Lytton amend Solitzen man ferryman at Lytton, named Spitzen has been drowned by falling from his boat

THE Celifornia is due to-morrow with the

By Glectric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

London, Feb 15-The Times this morning reviewing the debate last evening in Parliament, rejoices that the Government has adopted the idea so often advocated in the columns of that paper, viz, the withdrawal of the troops from Canada. The Times admits that Canada is an English colony liable to be invaded in case of war; yet peace is so assured that it is foolish to provide now for its rupture.

The weather is again fair though

The House of Lords transacted no business of importance and adjourned early to enable their lordships to attend the Commons where the new Irish Land Bill was to be introduced.

In the Commons the galleries were crowded. Notices were given of bills to relieve the bishops from attendance in Parliament; to reduce the rates of paper and letter postage. Denial was made on the part of the Government that any negotiatons had been entered upon for a renewal of the commercial treaty with France. Gladstone then asked leave to bring in a bill for land reformation, after which he introduced the Irish Church Bil'. Other measures to meet the damands in Ireland were promised.

He reviewed the land question in Ireland at length, comparing the Irish land tenure with that of England and Scotland, and recounted the grievances of the Irish tenantry, and alluded to the failures of half a century of legislation to afford relief; he then enumerated the features of the bill, it provides for the security of tenure and crease the facilities of transfer and purchase of land for loans to the tenant desiring to buy, and to landlords to enable them to retain the land. The new law is to be ad' ministered by a court of arbitration. The Ulster customs are to be recognized in the im; provement, giving the value to the tenants who are to be subject to execution for nonpayment of rent. Claims against tenants are barred. Notices to quit are to give the tenan year's time from the end of the current year and the county fees are to be divided between landlords and tenants. The bill will be read s second time on the 7th of March

Second Dispatch.

Europe. MADRID, Feb 16-Gen Prim yesterday officially assured the Cortes that the recent visit of the Duke de Montpelier was not on political matters. The Carlists' Deputies created a wild excitement in the Cortes yesterday, by charging that in the recent election their candilates in many districts were defeated through Government interference. The accusation was denounced as a falsehood. A stormy scene followed. After a violant debate the sitting was adjourned. Panis, Feb 16-Seven journals of this city have been officially warned this week. Last evening a great crowd of people assembled at the corner of St Martin's. Belleville. It was dispersed by the police with out disorder; still another prosecution is being commenced against the Marseillaise for violating the press laws. The banks have generally reduced their rate of interest. The Government powers sustain the Russian Government in the demand upon Switzerland for the surrender of the felon Keychkoff.

Father Hyacinthe has remained silent since his return to France. It is asserted on reliable authority that he will be relieved by the Pope from his vows as a Carmilite monk and permitted to continue in holy orders as an ordinary priest:

London, Feb 16-The weather during the past week was cold. Throughout England the new telegraphic system is hardly completed. There is complaint of delays. A great number of dispatches must be forced first through a penumatic tube half a mile from the post office before they get on the wires. The service, however, is gradually becoming better and better.

Reviewing the debate in the House of Commons last ovening on the introduction of the Irish Land Reform Bill, Bright expressed great satisfaction with the proceedings. He said the real union of Great Britain and Ireland may be dated from last night. The new bill is invalnerable in all its parts.

The Standard | Conservative | urges inquiry into the alleged cruel treatment of Fenian prisoners. The House of Commons held a brief session to-day. The proceedings were unimportant.

Oregon,

PORTLAND, Feb 17-The Ajax sailed from San Francisco for Pordard yesterday at 11 a.m. The California sailed at 4 p.m. to-day with a full cargo. A large quantity of freight was refused, the steamer being full.

California.

San Francisco, Feb 17-The next direct teamer for Victoria will leave sometime in

DELAYED DISPATCHES

LONDON, Feb 5—It is reported that the Cabinet has settled upon a land bill for Ireland. The new bill proposes to give security of tenure by confirming and assuring the same rights to tenants as are held under the best customs of the province of Ulser. It refers the disputes concerning improve-ments of land by the tenant and the amount of reat to a tribunal with power of summary nrisdiction.

Jarisdiction.

The Times has an editorial of American legislators and legislators. With comments on the composition of the House of Representatives, the natural consequence of popular elections. The Seculo is better, however.

the Times thinks, because the members are otherwise chosen.

Extraordinary scenes are occurring at the telegraph offices throughout England. The dissatisfaction is universal. Complaints of delay and errors have been greatly multiplied since the new attrangement were included. plied since the new arrangement went into effect. In this city particularly crowds of people surround the offices, and there is the utmost confusion.

The movement for the abolition of uni-

versity tests has been renewed vigorously. A large meeting was held at Plymouth last evening and resolutions looking to that end were unanimously adopted. Meetings are to be held elsewhere. to be held elsewhere.

The Pall Mall Gazette protests against the

The Patt Matt Gazzete protests against the contemplated interruption of the Anglo-Chinese trade in opium.

Rome, Feb 5—The Civita Catolica has a remarkable article. After referring to the menaces against the Ecumenical Council establishing decrease contentions. ablishing decrees contrary to the modern ides, it says the bishops will despise the governments that make laws at variance with the decrees of the Council. To exact obedience to such laws would be odious tyranny. If the governments separate Church from State they must expect terrible revolu-tions to overthrow them. France alone has been true to the Concordat, and the Council will bear this in mind.

MARSEILLES, Feb 5—Great excitement was occasioned this morning by the falling of two houses. Twelve persons were buried in the rains. It is act thought that all were killed, but two bodies have been recovered

killed, but two bodies have been recovered from the debris

MADRID, Feb 5—It is reported that the Duke of Montpensier's condidature for the throne of Spain will be altogether abandoned. Prince George, Catholic, 37 years of age, son of the King of Saxony, is now talked of in some quarters, while others propose Prince Charles of Prussia.

PARIS, Feb 8—Report from Corps Legislatif—Kattroarey, one of the Liberal deputies, demanded to know why Rochefort was not arrested before going to a political

not arrested before going to a political meeting where five thousand persons were assembled. It was not necessary that this meeting should have been thus disturbed and the people who were participating aroused to violence. The act of government was a provocation to the disturbance which took place. A member of the Ministry explained that the authorities had refrained from arresting Rochefort at the Chamber to avoid the scandal to which his arrest at such a place would give rise. The friends of Rochefor twee prepared to make the demonstra-tion which they had made, and upon the fact the Ministry would rest responsible for what had taken place. The country would judge between them and the rigters. He said there need be no unnecessary uneasi-ness for the poople, as the government was animated by the best sentiment towards The Minister of the Interior followed with

the assertion that the friends of Rochelort had determined upon a demonstration had Rochefort been arrested at the Chambers

Mochetort been arrested at the Chambers, M. Olivier praised the conduct of the police in dealing with disorder. They bad acted with faith, prudence and humavi y.

Parts, Feb 7—In the Corps Legislatif to-day Cremicox said be desired to question the Minister concerning the Rochetort affair. Olivier replied that he would not await the cault of the internation. result of the interpolation, but would do his duty. Cremeienx rejoined that it was pre-cisely as to what Ministers considered their duty he sought to inquire, and he hoped the Chamber would decide that i should be an-Swored at once. He then proceeded to make a strong appeal against the contemplated arrest of Rochefort as a wrong to his constituents. O'siver replied. After an artated discussion the Chamber, by a vest of 199 to 42, adhered to the view of On-or.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored

hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands alrophied and decayed. hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS. PRICE \$1.00.
